

RIOT IN BRITISH LOWER HOUSE CAUSED PREMIER TO ADJOURN

ATTEMPT OF PREMIER TO RE- SCIND FORMER ACTION STARTED TROUBLE.

THE SITUATION IS CRITICAL

Unionists Threaten to Obstruct All Business Until Home Rule Is Dropped.

LONDON, Nov. 13.—The house of commons, the popular house of the "mother of parliaments," was the scene tonight of a riot over Premier Asquith's proposal to rescind the action of Monday, when the unionists carried by a majority of 22, Sir Frederick Banbury's amendment, defeating the most important financial feature of the home rule bill.

The unionists refused to permit the debate and the speaker was forced to adjourn the session on account of the disorder. This is an extremely rare necessity, and the situation is considered a critical one.

The unionists almost unanimously, threaten that they will continue to make business in the house impossible unless the prime minister accepts the amendment or drops the home rule bill. They declare that his action is unprecedented and will be obstructed by unprecedented measures. Their object is to force the government to yield.

Called Minister Traitors.

The uproar far exceeded that which followed Asquith's speech when he introduced the home rule bill, and has not been equalled since the free fight over Gladstone's first home rule measure. The ministers were taunted with epithets like "traitors" and "spies."

Sir William Bull, unionist for Hammermith, was ordered from the floor for repeatedly calling Mr. Asquith a "traitor."

After the adjournment the unionists doubled up programs and threw them across the floor at the prime minister. Winston Spencer Churchill, first lord of the admiralty, was hit with a heavy book hurled from the camp of the enemy. A fight appeared imminent until Will Crooks, the labor member, poured oil on the troubled waters by starting the singing of "Auld Lang Syne."

When the session began, there were packed benches. The premier's followers gave him a great cheer on his entrance and demonstrated that they were present in force by defeating a motion to adjourn early in the proceedings by a vote of 227 to 218.

Wanted Action Revoked.

The substance of Mr. Asquith's motion was that the Banbury amendment be rescinded, "notwithstanding anything in any standing order of the house," and that the order of the house in respect to the home rule bill take effect as though Monday's proceedings had not taken place. The effect of this would be practically to begin again the consideration of the bill at the clause where the Banbury amendment was offered.

Andrew Bonar Law, leader of the opposition, had the floor quickly and inquired whether there was any precedent for the government's course, and whether it would not destroy all safeguards for regularity in the house of commons proceedings.

Amid loud opposition cheering, the speaker replied that he could find no precedent for rescinding a decision of the house arrived at during the passage of a bill. Whether it would destroy the safeguards was a matter on which every member must form his own judgment.

Did Not Understand.

There was a long discussion on the parliamentary points, and then Mr. Asquith arose and said that no notice had been given of the amendment offered by Sir Frederick Banbury and that its discussion was brief. He doubted if the members of either side had appreciated its importance. It

Attack Girls Previous Reputation.

NORWALK, O., Nov. 13.—Recalling to the stand Minnie Lavelley, the 19-year-old West Clarkfield girl victim of the "luring" assault there last August, the defense today began its case in the trial of the six men indicted for the offense. By questions concerning alleged conduct on her part, and by testimony of many West Clarkfield and Norwalk men and women, concerning her reputation for veracity, the defense attempted to discredit her testimony.

Ferns Lost the Decision.

INDIANAPOLIS, Ind., Nov. 13.—Tommy Howell bested "Wildcat" Ferns here tonight in a 10-round bout according to the decision of newspaper men. Howell carried the fight to the westerner from the start and in the second round Ferns, suffering from a heavy left to the chin, stayed down for the count of nine after accidentally slipping to the mat. Ferns finished stronger in the last round, the only one in which he appeared the aggressor.

LINE TO SAPULPA IS NOW ASSURED

A. A. SMALL HEADS COMPANY THAT WILL BUILD THE IN- TERURBAN.

START WORK NEXT MONDAY

Construction Will be Started in 30 Days and Cars Running in Six Months.

Plans that have been in the forming for the past two years for the construction of an electric railroad from Tulsa to Sapulpa, a distance of 15 miles have now reached such a stage that the completion of the road is assured within the next six months, according to A. A. Small, who is at the head of the company that will build and operate the new line to Sapulpa.

Engineering parties will start work Monday surveying the right of way to Sapulpa and construction of the roadbed itself will be started within 30 days, asserted Mr. Small last night. "The road will be operating in six months as it will take that long to build a bridge across the Arkansas river. An engineer from a bridge company was in the city a few days ago and he assured me that he would build the bridge in six months."

"It is our plan," continued Mr. Small "to construct the line to Sapulpa first and then build a line to Muskogee passing through Broken Arrow and Wagoner. Our charter gives us this right."

The new company which bears the name of "The Consolidated Electric Railways Company" was signed yesterday by Governor Crouce. The incorporators are Albert A. Small, George B. Small, Alvin B. Davis, A. B. Small and J. L. Davis.

The preliminary company is incorporated for \$10,000 but this capital will be largely increased as the work progresses. Money to finance the road has been arranged for in the eastern markets and will be forthcoming as fast as needed.

This company will eventually take over the Union Traction company of this city and the Sapulpa and Interurban company of Sapulpa which operates a city system in that town and a line to Kiefer. Both of these roads are entangled with receiverships at present, but when the legal entanglements are straightened out these lines will undoubtedly be taken over by the new company.

President Pennsylvania Lines Resigns.

PITTSBURGH, Pa., Nov. 13.—Without any previous public intimation, James McCrea, president of the Pennsylvania railroad system, today handed his resignation to the directors of the company to take effect January 1. At the same time it was announced that Samuel Rea, a vice-president of the company, who was the right hand man to President A. J. Cassatt, whom Mr. McCrea succeeded six years ago, has been chosen to succeed Mr. McCrea.

Panel Exhausted in Sneed Trial.

FORT WORTH, Texas, Nov. 13.—With but three men chosen as jurors out of a panel of 300 ordered in the case of J. Beal Sneed, charged with the murder of Captain A. G. Boyce, Sr., in Fort Worth, January 13, this year, court was adjourned Wednesday morning at 11 o'clock until 2 p. m. Thursday.

Another panel of 200 men was ordered and deputy sheriffs immediately left the court house to summon them.

Lumber Freight Rate Suspended.

WASHINGTON, Nov. 13.—An increase from 25 to 25 1/2 cents a hundred pounds in the freight rate on lumber shipped from points of origin in Texas and Louisiana to Des Moines, Iowa, and similarly situated destinations today was suspended by the interstate commerce commission from November 15 until March 15. An investigation of the proposed advance already is in progress.

SIGNAL SYSTEM CAUSE OF WRECK

LACK OF BLOCK SIGNALS SENT FIFTEEN PEOPLE TO ETERNITY.

SIXTEEN WERE INJURED

Passenger Train Crashed Into a Heavy Freight Through a Switch Be- ing Left Open.

INDIANAPOLIS, Ind., Nov. 13.—According to the inspectors for the Indiana railway commission, the disastrous wreck on the Cincinnati, Hamilton & Dayton railroad at Irvington, a suburb, at an early hour today, in which 15 persons lost their lives and 16 others were seriously injured, was the result of the company's failure to install a block signal system as it had been ordered to do by the commission.

The wreck was caused by the failure of the head brakeman to close the switch to a siding, on which a heavy freight train had been run to let the rapidly running passenger train, more than an hour late, pass. Carl Gross, the head brakeman, has assumed blame for the disaster. He is under police guard at a hospital, where he lies with a broken leg.

List of Dead and Injured.

Late in the day after the wrecking crews completed the search for the demolished passenger cars, the coroner's office here gave out a correct list of the dead and injured. The list follows:

C. F. Grundhorst, Cincinnati.
Albert Allen.
Mrs. Albert Allen.
Ben Doyle.
William Sharkey, engineer of the passenger train, Indianapolis.
Irvin M. Wiggins, conductor on the passenger train, Indianapolis.
Clem Imholt, theatrical man from Los Angeles, Cal.
Horace B. White, brakeman on passenger train, Indianapolis.
J. L. Palmer, 13 years old, Jackson, Ky.

Julia Cheney, wife of Clifton Cheney, Jackson, Ky.
Chester Cheney, 5 months old, son of Clifton Cheney.
John Cheney, 52 years old, Breathitt, Kentucky, died at Deaconess hospital.

Two-year-old daughter of Clifton Cheney, died at Deaconess hospital.
C. Rurg, fireman on passenger train, Indianapolis.
The injured:

Burton Jones, Dayton, Ky., male clerk, injured about head and back.
Clifton Cheney, Jackson, Ky., injured about body.
J. C. Skillman, Indianapolis, baggage man, bruised about legs.
Willis Rurg, Indianapolis, fireman, on freight train, leg cut and bruised.
Carl Gross, Indianapolis, brakeman on freight train, leg broken.
F. E. Emberton, Indianapolis, fireman freight train, bruised about body.
Fred Hutcheson, Madison, Va., scalded about face and arms.

Mrs. Mary Sears, Chicago.
Harry Sell, Chicago.
Mory Hutcheson, Madison, Va.
Mrs. J. C. Skillman, Indianapolis.
Hugh Kemp, Berlin, Ky.
W. J. Filer, Liberty, Ind.
A. C. Filer, Liberty, Ind.
Jos. Gross, Indianapolis.

W. W. Jefferson, negro porter, Chicago.
The passenger train, No. 36 from Cincinnati to Chicago, was more than an hour late, and at the time of the head-on collision was running more than 40 miles an hour. The engines had been given a clear track. Both he and the fireman were found dead in the cab of their engine.

All the passengers found dead were in the smoker and day coach, which were immediately behind the steel-reinforced mail car. Both passenger cars were of wood and were completely demolished. The injured in many cases remained pinned under heavy timbers until chopped out with axes.

The injured were removed to near-by residences and later taken to the Deaconess hospital here, where several died.

The bodies as fast as they were brought from the wreckage, were conveyed to the morgue here to await identification. Passengers who were not injured, and these were in the pullman cars, continued their journey.

Inspectors for the state railway commission were on the scene almost immediately and began an exhaustive investigation.

HOSPITAL

CONCEAL INFORMATION

Although officials at the Physicians and Surgeons hospital flatly refused to give newspaper men any information as to the condition of W. J. Murray, D. M. Martindale, Jr., and A. J. Cor-kind, all injured in an automobile accident Tuesday night, it was learned that all three were improving. Officials of the hospital declined to state to what extent the men were injured and while it is known that Murray's injuries are grave, that they refused to give any further information.

Osage Leases Badly Tangled, Result of Action of Council

(W. B. PECK.)

The tangled affairs of the Osage tribe of Indians promises to be long drawn out in respect to leasing that tribe's 688,000 acres of oil and gas lands. In all probability, from the action taken Tuesday by the Osage Council, the Wilson administration will be called upon to provide leasing regulations or else from out those now proposed by the government.

The absolute refusal of the Osage Council to recognize the bids of independent and individual bidders on their oil and gas lands, made last Monday on 46,000 acres, may result in the government calling for the election of a new council. The Indians' refusal is now in the mails en route to President Taft and Secretary of the Interior Fisher.

The tribal council still clings to the leasing of their oil and gas lands in a lump bid instead of splitting it up into numerous individual leases, the plan recently approved by President Taft and which followed Secretary Fisher's approval. The Osage council wishes to lease all their lands together to the Uncle Sam Oil company, and still so wish. The bid of the Uncle Sam company is upon the entire 688,000 acres, and provides that no gas shall be piped from the Osage Nation, but that it be utilized there in manufacturing and other industrial purposes. It also provides for a one-eighth royalty; and that an oil refinery to large capacity shall be established by the nation.

Oil and gas men in touch with the situation here declare that unless the

government gives over to the council its way of thinking, nothing remains to be done except for the government to oust the present council and call an election among the Osages for another council. Should the Osages reject the same council, there is little telling where the leasing will end.

It is little known that the affairs of the Osages are administered separately from the affairs of any other tribe of Indians. They are a nation unto themselves. They were originally removed from Southwestern Kansas but the government 60 years ago. Their lands have been allotted but oil company was with the council which the time of their removal from Kansas the government paid the tribe \$8,000,000, which is still held in the United States treasury. The Osages are now also demanding that this money be turned over to them, further complicating matters.

There are now about 2,500 members of the tribe. Their holdings are estimated at various amounts, but it is conservatively estimated that they are worth about \$33,000 each. They are by far the richest nation, individually on earth.

The Osage council in refusing to accept the bids for prospective oil lands Tuesday did so at the request of attorneys for the Uncle Sam Oil company. They turned down \$143,000.00 in cash and \$22.00 for every man, woman and child in the Osage tribe, and what is more, they refused an enormously out of proportion.

STATE RESTED CASE IN GUNMEN'S TRIAL

DEFENSE OF FOUR GANGSTERS OUTLINED BY THEIR COUNSEL.

NEW YORK, Nov. 13.—The state rested its case tonight in the trial of the gangsters accused of murdering the gambler, Herman Rosenthal, at the instigation of Charlie Becker, and counsel for the gunmen opened for the defense, declaring he would show that none of the four took part in the shooting or in any way were connected with the plot to kill Rosenthal.

He declared he would show the four were lured to the scene on a pretext and that the shooting in front of the Metropole, where Rosenthal was laid low, was done by Bridgie Webber, Harry Vallon and a mysterious stranger or who was thus brought into the case for the first time.

The defense's outline of its case, traced by the gunmen's attorney, C. G. F. Wahne, was not concluded until nearly 7 o'clock tonight. Court then adjourned until tomorrow, when the first witness for the defense will take the stand.

All Expressing Opinions.

WASHINGTON, Nov. 13.—Owing to President-elect Wilson's intimation that he would be pleased to receive suggestions regarding the desirability of an extra session of congress, there was much free expression among senators and members of the house favorable to such a session today than heretofore. Among those who pronouncedly advocated an extra session today were Senator Martin of Virginia, caucus leader of the party in the senate.

Negro May be Lynched.

OCALA, Fla., Nov. 13.—J. T. Berge, an aged farmer living near here and his adopted daughter, 15 years old, were murdered near their home late today by a negro. The girl was assaulted and her throat cut. The negro was captured and may be lynched.

Turks Suffered Heavy Losses

ATHENS, Nov. 13.—It is announced that 35,000 Turks were engaged in the battle against the Greeks at Yenidje. They had forty-two heavy guns. The Turkish losses numbered 2,000 killed, 500 made prisoners and 22 guns captured. The Greek losses were 500 killed and wounded, including 15 officers.

Recommend Woman to Mercy.

SHREVEPORT, La., Nov. 13.—Guilty of attempting to poison, with a recommendation for extreme leniency, was the verdict in the case of the state against Mrs. Eva Walls Bailey, charged with administering poison to her husband, C. C. Bailey.

If the court is influenced by the recommendation of the jury she will be sentenced to serve five years in the state prison. The maximum penalty under the charge is twenty years.

Turks Pillage Villages.

ATHENS, Nov. 13.—An official dispatch from Athens says the Turks have pillaged and burned 42 villages in the Janina and Mala-Klissi districts. In the neighborhood of Janina alone there are 6,000 women and children dying of hunger. In the villages of Gollita and Bonati large numbers of peasants have been massacred after being tortured.

CASE AGAINST JEFFRIES WEAK

EVIDENCE YESTERDAY WAS ALL FAVORABLE TO NOWATA EDITOR.

COUNTY ATTORNEY TESTIFIED

Letter Written By Thieves to Pueblo Postmaster Introduced as Evidence.

CLAREMORE, Okla., Nov. 13.—(Special.)—Seventeen witnesses have so far given evidence in the trial of H. O. Jeffries charged with the murder of Mrs. Irene Goheen, his advertising manager, April 20. Yesterday 10 witnesses were on the stand, including County Attorney W. V. Thraves of Nowata county who is prosecuting the case. So far but little evidence has been introduced that in any way connects the prisoner with the case, and in each instance so far it has been such evidence as would surround men around whom no suspicion exists. Prosecuting Attorney J. I. Howard of this county has been added to the list of attorneys for the state.

Register of Deeds, T. B. Campbell, testified to hearing Jeffries state the woman had probably met with foul play, a conversation which occurred prior to the finding of the body. Another witness J. H. Good, overheard a conversation in a Nowata restaurant in which Jeffries stated that the murdered woman was one of the most fascinating women he had ever known, and that he saw a letter shown him from Goheen, the husband of the dead woman in which she stated that Jeffries was hard to get along with, that he was high tempered, overbearing, and advised her husband to stay away from Nowata.

County Attorney Thraves minutely outlined the scene of the killing and all the details immediately after the body was found. He stated that the buggy tracks were those of a rubber-tired buggy and that Jeffries owned such a buggy. The horses tracks showed that the horse that pulled the buggy in which probably Mrs. Goheen went to her death had a shoe off of the front foot. J. S. Foster measured the shoe prints worn by the man who evidently did the crime and also the shoe prints of the woman. He describes minutely the position of the body and all details of the place where it was found.

It was Foster's son who first found the woman murdered.

An effort is being made by the state to secure the attendance of Goheen who, Monday was in Trinidad, Colo. So far he has not appeared.

The defense stated with a good deal of apparent belief that Goheen will not appear and they court his appearance. Up to the present time there has been no evidence either direct or circumstantial that connects the defendant with the killing of the woman, a score or more of other men residents of Nowata. The state, however, claims that two of their important witnesses cannot be secured one of whom is probably Goheen.

During the course of testimony of County Attorney Thraves this evening, Attorney G. L. Rider presented him a letter which was addressed to N. S. Walpole of Pueblo, Colo., postmaster of that city, in which the county attorney said, "This is to appraise you of the fact that in the course of the next few days, you will be called upon to give your deposition in behalf of the defendant, H. O. Jeffries, charged with the murder of Mrs. Goheen. The purpose of the depositions are to attempt to show in some manner that Len Goheen was in Nowata or thereabouts at the time of the murder, when in fact by testimony, he was in Pueblo at least one thousand miles away. In order that you might not be misled we take this means of advising you of the facts. A representative from this office will probably call on you in the next few days for the purpose of further informing you as to the time and condition of affairs relative to the murder."

Nothing But Praise For the Oil and Gas Edition of World

The World's special edition yesterday proved a great surprise and was highly complimented upon all sides. That it was appreciated was further proven by the fact that orders were received yesterday for 2,500 extra copies to be sent out of the city. They were sent to nearly every state in the union and to a number of foreign countries. One enthusiastic admirer telephoned in last night to say that he had been reading all day and had not yet completed the second section. "It is one of the finest and best things of the kind ever produced in Tulsa," he said. And thus came complimentary assurances from all over the city. Even nearby cities, Sapulpa, Bartlesville, Claremore, Muskogee and Okmulgee telephoned in orders for extra copies. "The World to my notion

Panel Exhausted in Sneed Trial.

FORT WORTH, Texas, Nov. 13.—With but three men chosen as jurors out of a panel of 300 ordered in the case of J. Beal Sneed, charged with the murder of Captain A. G. Boyce, Sr., in Fort Worth, January 13, this year, court was adjourned Wednesday morning at 11 o'clock until 2 p. m. Thursday.

Another panel of 200 men was ordered and deputy sheriffs immediately left the court house to summon them.

Circulation of the World is Enjoying Remarkable Growth

Without any special inducements and practically without a circulation manager for the past two months the circulation of The World has increased at a rapid rate. Ordinarily it requires constant effort on the part of every newspaper to keep up its circulation, but the experience of The World the past two months have been a revelation to experienced newspaper men. During that time its circulation has been looked after by a young lady in the business office whose time has been occupied wholly in keeping up the records of new papers, changes, stops and transfers such as arise in the ordinary course of business, yet during that period the circulation of The World has increased nearly one thousand. The daily average for November will be between nine and ten thousand. Well known newspaper expert of wide experience who had occasion recently to look over the circulation books of The World in connection with making a foreign advertising contract, which by the way was awarded to The World at a considerable advance over papers in cities of similar size to Tulsa, stated that he had never known of any paper, big or little, in the whole United States, and he travels from North to South and East to West, that covers its home field as completely as The World covers Tulsa. Less than three hundred homes in the city including Sand Springs and Kendall, are not regular subscribers for The World. The World is the only newspaper in Tulsa that has complied with the new postal regulations requiring a sworn statement of its circulation.
